5. Gurston Down has a 'No Tyre Spinning/Warming' policy on the way up to the Start Line. The First Offence will result in returning straight back to the paddock forfeiting that run. The second offence will result in exclusion from the event. Tyre wraps etc to be removed and disposed of in paddock bays or assembly / holding area and not in the startline area.
6. **PRACTICE & COMPETITION RUNS** will be in batches:- Your batch is indicated on the BATCHES RUNNING ORDER List, and on display at the office window. Additionally digitally on ALPHA system event noticeboard. Batches will, generally speaking, be run in car and bike number order. Double drivers (in the batch before) at the end of each batch, see below.

PRACTICE - (both days) will start at 8.30am. Please note – **No running of engines before 08.15**

RUNNING ORDER - Our intention is to offer on both days:

1. Two practice runs followed by lunch break (provisional), followed by
2. First Competitive Run,
3. Second Competitive Run,
4. (Sunday only) Top 10 run off for the Bikes & Combinations.
5. The Gurston Challenge Top 10 run-off between the fastest 12 registered drivers.

Additional practice runs and / or additional timed runs will be permitted if time allows, but will not count towards the results.

Application must be made to the Clerk of the Course for any variation in the running order. We will be operating the standard Gurston starting procedures. However please note:

Cars and Bikes to remain in paddock spaces until called forward by paddock marshals. Moving to the line as soon as possible after being called will be much appreciated.

Printed times are available at terminals at the far end of the office. Times will be available through the Gurston live timing website and timing screen as you enter top paddock.

***** On returning down the hill, would ALL CARS please drive directly into your paddock bay forwards, and avoid reversing, so the ones behind you do not stack up. You can then maneuver your car after all have returned in your row. This will greatly assist the smooth running of the meeting. Thank you. *****

Returning on the last run of the day, thanking the marshals with a wave or thumbs up is much appreciated, however please avoid using your car horn, in respect of our neighbours.

Drivers of **all** cars must keep seat belts fastened, wear their helmets, gloves (and FHR if applicable) at all times whilst the vehicle is moving, both in the paddock and on return down the hill.

If you come to a halt on the hill, a marshal will approach your car, face on and at a safe distance, in order to obtain a “thumbs up” signal from you. An intervention (recovery or medical) vehicle will attend if help is required.

7. **DOUBLE DRIVERS** - Double drives are prefixed **7 or 9**. **Please note:-** Would double drives please indicate on arrival in the top paddock by raising their arm in order that the paddock marshals can park them appropriately. The driver without the dual prefix runs in class. The driver with the '7/9' prefix will run in an earlier batch.

Double drivers will be released first to return to the paddock, and **where possible, park in or in front of your paddock bay**, to changeover and run in order as paddock marshals request. Stay in your paddock space until you are called forward.

8. **RESULTS** - Provisional results will be announced at the end of the meeting, formal results will be checked, to be posted digitally and at the office when verified. Should anyone require a paper copy of the results, they are available on request.
