MEDIA RED ZONES

Warden Law · Autumn Cup · 6–8 November 2026 · Version 1

Crossing / track entry	**NO GO zones**	**Marshal post**	**"Finish photo" access ONLY**	**"OK" zones, with caution.** Stand at least 5 m back and behind protection

GENERAL NOTES

1. Media personnel should strongly avoid crossing the track once karts are on it.
2. Marshal posts are marked in **ORANGE**. They count as "OK" zones and you may stand there, but you must not block the marshals' view, get in the way of their role, or block the light panels.
3. Only enter the track from the areas marked with a **blue arrow**.
4. Areas not marked red or as "OK" zones are not necessarily safe. Always stay behind protection.
5. No smoking or vaping while on track.
6. Do not sit down, including on stools. Stay alert in case you need to leave your area for any reason.
7. Remember: **motorsport is dangerous.**

EVENT-SPECIFIC NOTES

1. **PURPLE** zones are for **FINISH** photos ONLY. You may only stand in these zones for chequered flag photos.
2. The Scrutineering Bay / Post-Race Parc Fermé is completely **OUT OF BOUNDS** unless you are invited. Please leave the scrutineers to do their roles. You are free to go into the service park and pre-grid area, and to photograph through the fence into Parc Fermé, but you must not enter it.
3. Hi-vis in **RED, YELLOW or GREEN** must not be worn. We advise non-flag colours, for example **PINK** (see below).
4. All general and event notes must be followed. Anyone who does not comply will be removed from the circuit and lose their media privileges, including paddock access.
5. You must not photograph, film or record the scene of any incident. Anyone found doing so will lose their right to be on track and will be reported to Motorsport UK for incident and safeguarding purposes.
6. We appreciate this feels quite strict, but we have enough of a challenge earning the respect of the paddock without some media personnel feeling the need to do as they please.

HI-VIS COLOURS
